Swamped Again!

Yesterday thirty-three salespeople tried to wait upon our Grocery trade-couldn't do it.

Yesterday we thought we had bread enough for all, but the multitudes came and carried it away, and at sunset there wasn't a loaf anywhere only in the hands of the people.

To-morrow we add more bread to our daily supply, more people to our sales force, more delivery wagons to the service, and about five carloads more of spot eash Groceries, at the same kind of popular

It's a mighty pleasant thing to be able to save the people thousands in cash such tough

times as these appear to be. Rumors drift to our ears once in a while that there are people in this town who still claim a certain amount of respectability who say the goods we sell are not good-are worthless-are unwholesomeand a dozen other things that they ought not to be.

LISTEN!

If you get any goods from us that are not right for any reason bring them here, and if you don't get your eash, then you MAY say we're not doing business squarely.

We're selling the same goods the other fellows are selling, only we don't buy where they buy and don't pay the prices they pay. That's the only difference.

To-morrow at 7:30 a. m. Fresh Bread can be had again at half regular prices.

Five more carloads of firstclass Groceries will be opened and placed on sale as fast as we can rip the lids off of boxes.

We're selling great bargains in Dry Goods and Shoes. Don't forget that.

It was the first convention of the kind ever held in the Southsers from the various states of the Union assimbled at the Gate city of the South on January M. 180, and continued in session until February 8. The convention was presided over by Susan B. Anthony and was made notable by the presence of most of the leading champlons of woman suffrage in the United States, including Rev. Anna Shaw, Mrs. Catt, Miss Yates, Mrs. Upton and Miss Blackwell. The following ladies represented Kansaa, namely; Mrs. Josephins, Mrs. Diggs, Mrs. Prenits and Mrs. Mather. The proceedings were harmonious and enthusiastic, and reports of the progress of the cause from all parts of the Union were very cheering. A new and significant feature was the reports from the South as to the progress in finat section, The-ronvention was hanored with the presence of a number of notable and able women from the Southers states, including Miss Clay, a disaughter of Cassuis M. Constable Brown, of Justice Swingley's ourl, yesterday afternoon was compelled a "lock up" the engine which furnishes pleas court two weeks ago, his submitted a report to the chairman in reference to the chairman in reference to the bills introduced in the legislature concerning the public schools of this city. Although the meeting adopted a resolution against any increase in taxes, yet the committee, composed of the leading men in the movement, after investigating the matter, have decided that it is to the interest of the taxpayers to have an increase in the levy for school purposes. The following is the report of the committee:

"To W. A. Simpson, Chairman of the Taxpayers' Meeting, Kansas City Kas:

"Your committee appointed to investigate the bills pending before the legislature affecting taxes in Kansas City, Kas, beglow to report that we have partially performed the duty assigned, and find among formed the duty assigned by the second the control of the committee in the control of the contr n stopping the engine and attached his ock.

ing a high school.

"Such begishation would make an additional burden of 4 mills, and it is our opinion, after investigation; this matter, that such increase is fully justified by the present crowded condition of our schools. We further believe that with careful management a 7 mill levy for building purposes, to be limited to a period of not more than live years, will be sufficient to afford good school facilities, and we believe that the question of building a high school should be left to the voters of the city on a bond proposition unfer existing laws.

"Your committee is informed and finds, upon examination of the financial affairs of the board of education, that during the fiscal year ending June 20, 183, there was paid, among other things, the following: To teachers, salaries averaging 1849 each. Solids, 50; to officers, superintendent and clerk, \$2,560; other office expenses, \$4,905; to failties, \$2,560; other office expenses, \$4,905; to failties, all and the could not catch them.

Military Drill in the Schools.

New York Tribune: The good people who fear that military drill in the schools will develope warlike instincts in American youth and make a nation with a chip on its shoulder should also protest against fencing, boxing and baseball. If a boy learns to handle foils there is danger that he may become fond of dueling and run about trying to stick a sword through all who do not agree with him. A nation of boxers may become a nation of prise-righters, and proficiency in the use of the baseball club promises the development of a race of brutal skull-breaking policemen. It is much better that we should be a nation of sheep. Only there is one difficulty there. Sheep follow their leader, and the objectors to military drill have grave fears that the discipline will affect the individuality of the children. A boy should not learn exact and prompt obselience lest he loss the pewer to act on his own responsibility. How could a nation of water bugs answer? They never fight and they so every may. City-Miscellaneous.

The election of the Hon.Lucien Baker for Inited States senator has very materially strengthened the Republican party in this etty and county. For ten years the Democrais were in control in the city, and more than that in the county. The election of the present Republican mayor was brough about by factional fights in the Democratic party. They have been expecting to get to gether again, and elect one of their men this spring for mayor. Their prospects now are very slim. It is true that the city and county are about equally divided be tween the two parties, but the influence of Mr. Baker and his friends will insure the

election of the nominee of the Republican

The friends of the present mayor, Mr

Dodsworth, are making preparations to re-nominate him, and very active work is being done in every ward in the city; but of course, when a Republican victory is sure, other gentlemen are looking after the nomination. Councilman George McGill is the committeeman from Leavenworth, of cities of the first class, to look after legislation at Topeka. He is there now and has been for some time, looking after matters of interest to Leavenworth. He is making a very good record for himself, and has a large number of friends in the city who want him to be a candidate for mayor this spring, and they are talking up his good qualities. The most dangerous candidate that the present mayor will have to contend with is Thomas L. Johnson, Justice of the peace; this is his second term as justice. He came to Leavenworth in 1857, and has the history of the city at his fingers' end. In the '70s he was twice president of the City council; he is the oldest member of the Typograhpical Union of this city and two years ago was president of the Trades Council; he has many friends amongst business men, the working class and the colored people in the city. There has been so much talk within the last few weeks of the candidacy of this gentleman that a correspondent called upon him for an interview, and asked him if he was a candidate for mayor. He said: "I don't like the way you put the question; no man ought to seek the man; that is the style of polities I like. Lucien Baker was made senator on this plan. It is true that I have had five deputations within the last week of gentlemen representing the different wards in the city asking me to make the race for mayor, and I have statel to them what I will state to you, that while I am not a candidate for the position and am not seeking it, yet if the people of Leavenworth think that I am a proper man to occupy that position I am in the hands of my friends. No man could afford to refuse the nomination for mayor, on the conditions that I have named! I am a Republican and have the eligible on the selected mayor you can depend on it that I will give the city a Republican seministration."

The New Police Commissioners. The New Police Commissioners.

The new police commissioners have settled down to business. They have paid off the debts of the old board and made seme changes on the force. They are not, however, acting hastily; they are looking the ground over and will endeavor, when they do make changes, to appoint good responsible men. It is understood that the policy of the board will be different from that of the Populist board, which it has succeeded.

The Cold Weather.

The cold weather that we are having is a great help to the city of Leavenworth. While other parts of the state may be suffering, the colder the weather the better off is our city. Our coal mines are running to their fullest capacity; they are paying in wages \$15,000 a week. This money distributed amongst the working people and amongst the storekeepers accounts for the small amount of distress found here. The ice harvest has also been a successful one, and a very large number of men have been employed cutting ice. Taking it all together, our men are well employed.

Movement for New Factories.

The Commercial exchange is considering the feasibility of calling the property owners of Leavenworth together, to raise a fund for the purpose of bringing new factories to the city. It is thought that there is likely to be a revival of business in the spring, and the business men of eavenworth think they ought to be prepared for it. They expect to perfect their plan of propositions during the coming week and submit it to the public.

Sunday School Workers. Sunday School Workers.

The Leavenworth county Sunday school convention has convened in this city at the First Presbyterian church. There are representatives present from all quarters of the county, and much good work will be done. An interesting programme has been prepared for to-day's exercises. The following are the officers: President, E. C. Dudley; vice president, I. T. Underwood; secretary, A. M. Jackson, treasurer, W. M. Allan, New officers will be elected before the association adjourns.

A Church Society Trying to Compel One of Its Members to Give It Title to Land. was recently filed in the district ourt of this county which is creating ulte a sensation in the Junction school listrict, two miles southwest of Argen-ine. Several years ago the citizens of the district built a church that was understood to be used as a union church. David Matney, who is the owner of the property on which the building was creeted, is a member of the Baptist church. Some of the members of the church believed that the Baptists should have entire control of the property and asked Mr. Matney to deed the land to the church, but this he refused to do, as he claimed the church was to be used by all as a union church. The Methodists recently organized a church and this was too much for the Baptists, consequently they filed a suit against David Matney to compel him to deed the land occupied by the building to the Baptist church. The suit was brought up in the district court several days ago, but was continued until the April term of court. A large number of witnesses have been called and the costs of the suit will be large before a decision is rendered. the district built a church that was un-

Where the body is, there will the eagles be gathered together. As to beggary of the professional sort, it will flourish as heretofore unless active measures are taken to suppress it. Beggary is popular in New York, and the public likes to be fooled. That is proved by the fact that beggars haunt the same spots day after day or night after night, obtaining on the average about so much every two or three hours. These beggars must accost the same people many times over. It is positive evidence that a man is a professional beggar when he is seen begging day after day at the same place. If persons who see such things will promptly report them to this office, the society will send an officer to arrest the impostors. Comparatively few persons do so, partly because most men feel that the man who stoops to beggary must be in desperate need.

"It seems to me, however, that beggary, is decreasing rather than increasing in New York. I am inclined to believe that there is less than there was twenty years ago, and I am sure that children are less used as bait by beggars than they were then. It was a common thing twenty years ago to see Italian women begging, babes in arms. It is comparatively rare now."
